On the contrary, she gives the impression of abounding good nature. She is an eminority practical person, with a grasp of the handsomest gowns that are seen in nearly practical person, with a grasp of that showplace of handsome gowns, the affairs equal to that of any man, and when she becomes interested in a favorite project her eyes sparkle with enthusiasm. The transaction concerning Montgomery and give my time to studying the fashions showned is one of which she would maintain a guarded reserve.

"I'm not going to tell you anything about it—not a thing! It wouldn't be fair, and it's nobody's business, anyhow; but—" she hesitated smillingly, long enough to relent a little.

"I'll tell you this much; you may say this—" wouldn't be disconting the development of the gold fields that have given us so much." Mrs. Montgomery is interested there in a thoroughly practical way, for she has built a schoolhouse for the children in the enough to relent a little.

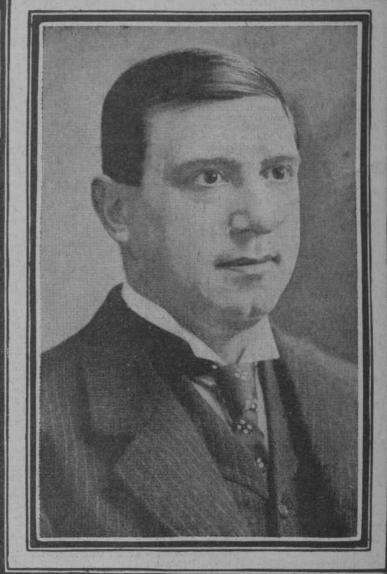

"I'll tell you this much; you may say mine that made the millions—and she has the content of the content of the camp where lies the Shoshone Mine—the mine that made the millions—and she has the content of the camp where lies the Shoshone Mine—the mine that made the millions—and she has "The tell you this much; you may say this:—

mine that made the millions—and she has built a hotel, the best equipped hotel on the desert, at Beattie. It has twenty rooms, with hot and cold water, fine rooms with baths, and she built it, as she mentions when we go up there."

Mrs. Bob Montgomery, you see, is not a woman concerned with trifles.

"I like to go to the races," she goes on, "because I like to see the horses run. I love horses.

Imperial Granum

The Unsweetened FOOD Why it Makes Healthy, Strong Babies

First place, it's a wheat food. Why? Ask the Doctor—he will tell you that all the elements needed to make m, rosy flesh and strong muscles, bones and teeth are locked up in a kernel of heat—and in no other grain. And there's no sugar in it. Why? Because weet foods make flabby fat and not solid flesh.

And there's no pepsin or other medicine in it. Why? Because none is necessary. Its own food properties make it easily digestible. Babies so weak that hey can't retain or digest anything else thrive on it. It helps and strengthens the ittle stomach—not only for the time being, but for all time. In short, its an all-'round, naturas food—one that all babies need and crave—and nothing else. Try it for sick babies—it will make them well. Use it for well babies, big of little—just see how they will grow! How sturdy, strong and happy it will make them, what appetites they will have, how sound they will sleep.
